Double Patenting

1. Claims 7,8,10-42,50-55,58-63,71-73,79-81,83,84 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-38 of U.S. Patent No. 6,757,561. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the present application are an obvious variant of the claims of the parent patent.

It should be noted that the claims of the '561 patent have been changed by the certificate of correction entered in the patent. Further, applicant can petition the Director of TC 3700 for a credit to applicant's deposit account if applicant deems the examiner's position is mistaken.

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
